

Can you help us be more efficient in selling your products?

Our agency uses a powerful mobile app from Blacksmith Applications that allows our sales reps to access your GS1 product data in an easy and organized fashion during the sales call process.

LISTING PRODUCTS ON THE 1FS FOR BROKERS APP IS FREE OF CHARGE FOR MANUFACTURERS!

Using the app, we are able to:

- ✔ Access your up-to-date GS1 product info
- ✔ View enhanced product data on the fly, including brochures, videos, images, nutritionals, and recipes
- ✔ Easily email product spec sheets directly from the app

Access to your products is strictly controlled and visible only to your brokers in their designated markets.

If you are GS1 compliant*, we would ask that you forward your GLN and name of your data pool provider to Blacksmith Applications so that our sales team can best present your products - and SELL MORE!

Please contact us at
